HIGH-SPEED DOCUMENT SCANNERS

Canon Canada Inc., headquartered in Mississauga, Ontario, delivers commercial imaging solutions. Canon's complete line of document, network, and cheque scanners, enable businesses to improve costs, efficiencies, management, security, and compliance related to capturing, storing, and sharing information.

The Canon imageFORMULA scanners satisfy a wide variety of document imaging needs and budgets with a full-range of scanning solutions. They offer the kind of high-performance features that make converting paper to electronic documents easier, such as high-speeds, advanced image processing, and flexible configuration options.

The complete Canon scanner line offers high image quality, leveraging years of experience in developing high-precision optics technologies. It also offers flexible and reliable scanning of mixed batches of documents. And finally, it delivers outstanding value.

Canon scanners are based on a tradition of excellence, with solutions designed to improve workflows and cater to user and corporate requirements. Canon scanners are efficient and affordable imaging solutions, satisfying a wide variety of content management needs. With strong alliance and compatibility partnerships, strong industry associations, and strong channels of delivery and fulfillment, Canon can help any business make the transition into the paperless office.

Personal Document Scanners

Canon's line of imageFORMULA P-Series personal scanners allow Small Office / Home Office (SOHO) users, telecommuters, and road warriors to improve personal efficiency and individual productivity. Highly portable and mobile, these small, easy-to-use scanners are for individual or shared use for general purpose, distributed scanning tasks, from the convenience of any location.

Cheque Scanners

The Canon imageFORMULA CR-Series cheque scanners convert paper cheques and related small documents into electronic images, helping to decentralize payment processing from the first point of presentment to settlement. They can be used in a wide variety of applications, including teller and remote deposit / merchant capture, as well as utility and back-office capture, remittance processing, lockbox, and branch automation. They offer features such as high-speeds, compact footprints, and convenient easy use.

CR-80/50

80/50 cpm

IMPROVING THE CUSTOMER AND TELLER EXPERIENCE

Convenient, compact cheque capture solution to decentralize payment processing from the first point of presentment to settlement. Ideal for low-volume teller, branch, and remote deposit / merchant capture applications.

- High-precision magnetic head and patented MICR reading technology and built-in OCR support
- Infrared Double Feed detection and Paper Thickness Adjustment ensure reliable handling of mixed-item batches, including personal/ business cheques, document carrier envelopes, and deposit slips

Type:

Type:	Workgroup Teller Cheque Scanner
Document Feeding:	Built-in Automatic Feeder

Scanning:

Speed:	CR-80: 80 cpm* / CR-50: 50 cpm*
Scanning Modes:	Black & White, Greyscale, Colour
Optical Resolution:	100/120/200/300 dpi
Feeder Capacity:	50 sheets
Document Size:	Width: 2" – 4.3" Length: 3.1" – 9"
Suggested Volume:	CR-50: 2,500 / CR-80: 5,000 per day

General:

Dimensions:	H 7.4" x W 5.5" x D 8.8"
Weight:	4.4 lbs.
Power Consumption:	20.4W or Less (Energy Saving Mode: 4.7W or Less)
Interface:	Hi-Speed USB 2.0

Features:

- Border Removal
- Built-in Pre-scan Imprinter
- Deskew
- Infrared Double-Feed Detection

Bundled Software:

- Ranger Driver with IQA
- Canon Scanning Utility Software

ENERGY STAR

*Examples based on typical settings, rated in cheques/images per minute with personal cheques at 200 dpi in black and white or greyscale. Actual processing speeds may vary based on data transfer time and your system configuration.

CR-135i

135 cpm

HIGH PERFORMANCE CHEQUE PROCESSING

A high-volume cheque transport that delivers high performance, reliable image quality in an efficient countertop design. The CR-135i is perfect for processing large numbers of cheques and related small documents.

- The CR-135i features an advanced paper handling mechanism to provide continuous, jam-free feeding of cheques—even batches of mixed sizes.
- The three eject pockets provide smooth scanning of high-volumes. CR-135i also allows users to sort scanned documents into each pocket based on MICR or OCR while still maintaining top scanning speeds.

Type:

Type:	Departmental Cheque Scanner
Document Feeding:	Automatic Sheet Feeder

Scanning:

Speed:	135 cpm*
Scanning Modes:	Black & White, Greyscale
Optical Resolution:	100/120/150/200/240/300 dpi
Feeder Capacity:	250 sheets
Document Size:	Width: 2.7" - 4.3" Length: 4.7" - 9.6"
Suggested Volume:	20,000 per day

General:

Dimensions:	H 8.4" x W 18.7" x D 10.7"
Weight:	17.6 lbs.
Power Consumption:	53W or Less (Energy Saving Mode: 3.8W or Less)
Interface:	Hi-Speed USB 2.0

Features:

- Colour Dropout
- Continuous Feeding
- Deskew
- Function Button
- MICR-based Imprinting / Sorting
- OCR-based Sorting
- Three Output Pockets (200/200/50)

Bundled Software:

- Ranger Driver with IQA
- Canon Scanning Utility Software

Options:

- Exchange Roller Kit
- Ink Disposal Tank

ENERGY STAR

*Examples based on typical settings, rated in cheques/images per minute with personal cheques at 200 dpi in black and white or greyscale. Actual processing speeds may vary based on PC performance and application software.

Flatbed Scanner Unit

Flatbed Scanner Option*

The Flatbed Scanner Unit is a device designed to complement Canon's high speed document scanners and widen the variety and types of documents that can be scanned to include bound, thick, and fragile documents.

- Simple USB connectivity
- Flexible operation
- Advanced image processing
- Adaptable hardware allows for "Open Scanning" of books and bound documents

Other Options & Accessories

Depending upon the scanner model, various other options and accessories may be available, such as rollers, carrying cases, and AC adapters.

*Compatible with most DR Series scanners

Canon Software – CapturePerfect

Comprehensive Document Imaging Software to Maximize Canon Scanner Performance

Canon's CapturePerfect software delivers image processing features needed to obtain the highest image quality in even the most rigorous scanning environments. It is designed to help maximize Canon scanner performance, increase productivity and streamline document imaging workflows.

CapturePerfect helps Canon scanners deliver images of the highest quality, true to their original form, while providing convenient ways to edit, arrange, and manage files with a drag-and-drop interface. Precise images can be captured from even the most difficult original documents for immediate distribution to file folders, presentations, printers, and e-mail.

CapturePerfect software can help increase the productivity and workflow of a company's Enterprise Content Management (ECM) process.

Canon Software – CaptureOnTouch

Increase User Productivity by Simplifying the Document Scanning Process

Canon's CaptureOnTouch software tool can help increase user productivity by simplifying the document scanning process. The intuitive interface enables users to quickly and efficiently scan documents and automatically distribute them.

Developed for quick and intuitive scanning, CaptureOnTouch leads users through the complete scanning process step-by-step. Even if familiar with document scanning and electronic data storage, businesses can profit from reduced user errors and save valuable time through faster processing and improved control of file distribution.

The CaptureOnTouch software tool can help provide extra value by simplifying how scanning tasks are handled by companies that are striving to improve their document imaging processes.

eCopy® PDF Pro Office

eCopy PDF Pro Office key benefits include:

- **Fast, Accurate PDF Scanning –** A highly accurate OmniPage OCR engine to deliver fast scanning of paper into 100% industry-standard searchable PDF and PDF/A.
- **The Best PDF-to-Office Conversion –** Converts existing and scanned PDF files into fully-formatted Microsoft Word, Excel, PowerPoint as well as Corel WordPerfect documents.
- **Unmatched PDF & Paperless Productivity –** Easy to combine existing Microsoft Word, Excel and PowerPoint documents with scanned PDF documents, and can automatically turn a paper form into a fillable PDF form that can be completed online.
- **Web Integration –** Includes a toolbar which lets users customize the way they interact with PDF files within Microsoft Internet Explorer, FireFox and Google Chrome Web browsers.
- **Smarter PDF Search –** Automatically highlight keyword matches throughout a PDF document, mark matched areas for redaction, and find items that have distinct patterns, such as text that looks like a phone number or email address.
